

V-WIRE SCREENS ELEMENT

World's finest Vee-Wire Screens for filtering, dewatering, particle sizing in sugar, tapioca, food and other processing industries. Most of the sugar mills in Thailand use Johnson Screens in various processes.

NICKEL SCREENS

A working screen element for Continuous Centrifuge for fine screening in sugar and food industries. Atul Nickel Screens has been one of Thailand's best-selling screens.

SUGAR VIBRATING SCREEN

Rhewum, a leading German company in screening and classifying technology. Easy and quick changing of screen cloth, low power consumption, no dynamic loads transferred into the building. Screening machines with direct cloth excitation. Screening and separation systems for sugar industry.

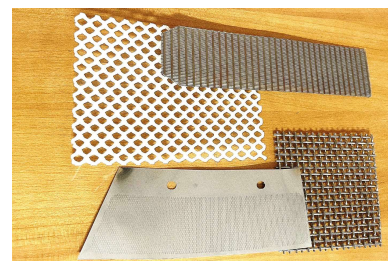

JUICE SCREENING MACHINE

Balmac's Rotary Screen has been widely used in many sugar mills, demonstrating the suitability of the design, production, and engineering concepts. We use Johnson Vee-Wire screens elements, the world's most well-known Vee-Wire screen manufacturer.

SCREEN ELEMENTS

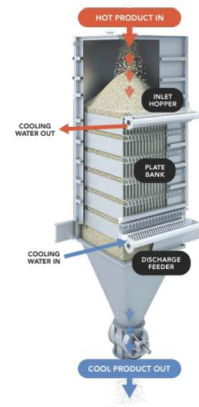

We also supply Batch Centrifuge Cover Screen from Europe & USA. Dovex Backing Screens from Germany. Plastic Backing Screens from Japan.

SUGAR COOLING

Evolution in sugar cooling. The Solex heat exchanger technology with indirect water-cooling concept, benefits energy reduction and operational flexibility. Economical solution for mill expansion as existing Drum Dryer-Cooler can be transformed to a complete Dryer Unit and Cooler is then performed by Solex instead.

HOFMANN BALANCING MACHINE & PORTABLE MINIBALANCER

Horizontal Hard Bearing Machine are used to precisely balance a large variety of roll – or misshaped rotors. A new portable automatic mini balancer for Site Balancing Service and Vibration Measurement.

SITE BALANCING SERVICE SHOP BALANCING SERVICE

No matter what your machinery is:- Centrifugal Basket, ID Fan, FD Fan, Shredder, Rotor Motor and other rotating parts. We provide you with Site Balancing Service and Shop Balancing Service.

Engineering and
Technologies

DIE CASTING MACHINES

IMR, The Entire Range of Machines for Die Casting of Brass. Low Pressure and Gravity System. Core Blowing Machine, Furnace Dies and Core Boxes. For sanitary valves, fittings, and water meter.
